HEAVY DUTY (HD) POLYESTER
ONE COAT HIGH CORROSION RESISTANT POWDER COATINGS

- Heavy duty anti-corrosion polyester powder coatings
- One coat application
- Ideal coating solution for applications needing superior protection from the elements
- 2,500 hours of salt spray resistance (ASTM B 117) without primer, over 10,000 hours with primer
- Capable of high build - from 3 to 12 mils (75 - 300 microns)
- Superior anti-corrosion properties
- Dramatically increases the life of products
- Reduces maintenance and replacement costs

- Extremely durable
- Excellent adhesion properties allowing for the elimination of a primer
- Prevents moisture from reaching substrate
- Excellent scratch and chemical resistance
- Environmentally friendly
- Available in a wide range of colours and textures

APPLICATIONS

- Truck scales
- Transformers—pad mounted and pole mounted
- Wind mills and industrial fans
- Outdoor furniture
- Agricultural and other outdoor machinery
